After driving her car into the side of her parents' garage, Casey is stuck filing papers in her mom's office during the day, and confined to her house on the weekends. Worst of all, she's not allowed to see her favorite band, Moving Neutralwhose lead guitarist, Blake Parker, just might be the love of Casey's life. But with her best friend's help, Casey comes up with a plan to sneak out of her house for the concert. And as she's standing in line at a coffee shop near the show, everything changes. Because behind her is Blake Parker, ready to sweep her away for the best summer of her life.

Given the overwhelming number of ineffective economic reform policies and programs, a central question for international development concerns how significant economic change happens. In the midst of this quandary, a puzzle has been growing quietly the last two decades. Vietnam has transitionedfrom a poor, centrally planned economy to one of the fastest growing, market economies in the world, despite ignoring conventional reform strategies. This book focuses on solving a specific puzzle of Vietnam's transition. Its fastest growing city, Ho Chi Minh City, has a real estate industry thatranks as the worst place in the world for private capital to invest . Nevertheless, entrepreneurs have emerged to form private firms within the first decade of transition. Where did these people come from? How could they conduct business in such an inhospitable economic environment? The book findsthat the transition to capitalism is neither the natural propensity of individuals nor the decision of an all-powerful state nor necessarily requires a long, evolutionary process.The major, rapid, and discontinuous economic change that occurred in Vietnam was fundamentally enabled by a socialreconstruction of cognitive paradigms.The new social cognition framework accounts for why some firms were more successful than others as well as why Vietnam's capitalism has surprising characteristics.

Next Forever by Lisa Burstein. A new adult novella from Entangled's Embrace imprint... **Recommended for ages 17+ due to sexual content and language, mature subject matter** One night in college can change everything... Away at college, Amy just wants one night alone without her high school sweetheart, Joe. So when he invites her to go to the library, she heads off on her own instead. How she ended up at a house party with the mysterious bad-boy Trevor is another story... Joe so isn't going to the library. He needs space from Amy, too, so he's decided to rush a fraternity, to get back the swagger he had in high school. But it doesn't take long for the brothers to invite him to the real rush—where the beer is flowing and one particular girl has set her eyes on Joe. Over the course of one wild night, both Amy and Joe will have to decide if their futures belong with two new people, or whether the next forever will have their first loves in it.
