The first book by the reclusive inventor of the world ' s most iconic puzzle THE RUBIK ' S CUBE. Erno Rubik inspires us with what he ' s learned in a lifetime of creating, curiosity, and discovery. Erno Rubik was a child when he first became obsessed with puzzles of all kinds. " Puzzles, " he writes, " bring out important qualities in each of us: concentration, curiosity, a sense of play, the eagerness to discover a solution. " To Rubik puzzles aren ' t just games—they ' re creativity machines. He encourages us to embrace our inner curiosity and find the puzzles that surround us in our everyday lives. " If you are determined, you will solve them, " he writes. Rubik ' s own puzzle, the Cube, went on to be solved by millions worldwide for over forty years, become one of the bestselling toys of all time, and to be featured as a global symbol of intelligence and ingenuity. In Cubed, Rubik covers more than just his journey to inventing his eponymous cube. He makes a case for always being an amateur—something he has always considered himself to be. He discusses the inevitability of problems during any act of invention. He reveals what it was like to experience the astonishing worldwide success of an object he made purely for his own play. And he offers what he thinks it means to be a true creator (hint: anyone can do it). Steeped in the wisdom and also the humility of a born inventor, Cubed offers a unique look at the imperfect science of creation.

Rubik's Cube: A Puzzle Every Child Should Learn to Solve. Tom was eagerly awaiting this day. For weeks he'd been begging me to buy him a Rubik's Cube. And so, I handed the puzzle to my kid and hoped for the best. As a kid, I couldn't even put on clothes straight- and here I was handing a cube deemed for geniuses to my boy. For the entire day, I saw my boy struggling, twisting, and turning the cube in every possible direction all to no avail. A week passed and just as I was expecting Tom to throw it in his used toy bin, he did it. "Mommy! Mommy! Look!" He had solved the puzzle. Little Thomas learned how to solve a Rubik's Cube that day. But he also learned a more powerful lesson; he learned the power of perseverance, determination, and resilience. He learned that gratification isn't always immediate. I was so proud of him!
