deepest sources of culture: art and religious faith. Wolfe has been called “one of the most incisive and persuasive voices of our generation,” and this penetrating and wide-ranging book makes a powerful case for the importance of beauty and imagination to cultural renewal. He begins by tracing his

Along the way, Wolfe finds in Renaissance Christian humanists like Erasmus and Thomas

have technology, convenience, security, and a measure of prosperity, but where is the beauty? For thousands of years, artists, sages, philosophers, and theologians have connected the beautiful and the sacred and identified art with our longing for God. Now we live in a day when

convenience and practicality have largely displaced beauty as a value. The church is no exception. Even salvation is commonly viewed in a scientific and mechanistic manner and presented as a plan, system, or formula. In *Beauty Will Save the World*, Brian Zahnd presents the argument that this loss of beauty as

The full message of the beauty of the gospel has been replaced by our desires to satisfy our material needs, to empirically prove our faith, and to establish political power in our world--the exact same things that Christ

was tempted with and rejected in the wilderness. Zahnd shows that by following the teachings of the Beatitudes, the church can become a viable alternative to current-day political, commercial, and religious power and can actually achieve what these powers promise to provide but fail to

The post-Christian world we inhabit today presents us with a mundane and

disenchanted view of reality. Under the sway of materialism and science, we have been left with a way of seeing, thinking, and living that has no place for beauty and wonder. We now live in a world bereft of magic and mystery.

Many--including many Christians--no longer perceive the world in its proper light. As a result,

the Christian imagination is muted. Moreover, the church has grown anti-intellectual and sensate, out of touch with the relevancy of Jesus and how to relate the gospel to all aspects of contemporary life. As a result, the Christian voice is muted. In this age Christian wholeness remains elusive,

blunting the church's ability to present a winsome and compelling witness for faith. As a result, the Christian conscience is muted. Cultural Apologetics addresses this malaise by setting forth a fresh model for cultural engagement, rooted in the biblical account of Paul's speech on Mars Hill, which
