Beyond the DSM Story presents challenges to the Diagnostic Statistical Model (DSM) system from ethical and cultural perspectives, critically evaluating its fit with other professional and theoretical orientations. It offers possible solutions or best practices for addressing ethical, theoretical, and contextual quandaries, along with experiential activities that challenge the reader to think critically about both the problems and the solutions associated with DSM diagnosis. Beyond the DSM Story presents an atheoretical model for incorporating alternative models with DSM assessment. Instructors, students and practitioners will benefit from this critical appraisal of the DSM.

Impairment and disability are widely used terms, yet considerable disagreement exists as to their relationship—especially when impairment means different things to different professionals in the fields of mental health, medicine, and education. Although diagnostic criteria for various disorders are clearly detailed in the DSM-IV and elsewhere, criteria for impairment remain elusive. And patients with severe limitations but minimal symptoms, or the reverse, further complicate the discussion. The first in-depth treatment of the theory, definition, and evaluation of this core concept, *Assessing Impairment: From Theory to Practice* cuts through the confusion and cross-talk. Leading scholars and clinicians offer a robust evidence base for a much-needed reconceptualization of impairment within the context of diagnosis and disability, arguing for a wide-ranging quality-of-life perspective. This contextual approach to assessment goes beyond mere symptom counting, resulting in more accurate diagnosis, targeted interventions, and improved patient functioning. Within this concise but comprehensive volume, coverage focuses on key areas including: Current conceptualizations from the DSM-IV and other medical models. Methodologies for measuring symptom severity and impairment. Social/behavioral issues, such as resilience, adaptive behaviors, and family environment. Developmental issues across the life span. Legal and ethical questions and civil rights issues. Impairment and disability as they relate to trauma. The interdisciplinary model proposed in *Assessing Impairment* gives clinicians vital tools for working with the unique limitations and strengths of every patient. Child, school, and educational psychologists will find it particularly useful, given the critical importance of early detection and the complexity of young people's lives.

This book will offer rich discussions and realistic learning experiences about ethical codes, legal issues, and challenging cases that all practicing counselors will face. It will be ideal for professors who are looking for an engaging, activity-based way to teach ethics in the classroom. This book will provide background information about positive approaches to ethics as well as integrate this approach into each chapter (e.g., in a personal testimony in which authors describe a case dilemma that they resolved using positive approaches to ethics.) Each chapter in this book will address key content related to the ethical issue under consideration and will include original case studies and reflection and process questions that highlight the issues under consideration.

Designed for students who are taking a preliminary course in the counseling field, *Introduction to the Counseling Profession, 7th Edition*, provides a comprehensive overview of the history and foundational concepts of counseling, offering the most current and relevant breadth of coverage available from experts in their respective fields. This edition includes topics rarely discussed in introductory texts, such as self-care and self-growth and the use of technology in counseling, as well as a new chapter on crisis counseling. Chapters also reflect updates to the 2016 Council for the Accreditation of Counseling and Related Educational Programs (CACREP) standards, and a chapter on each CACREP specialization is included. Students will gain insight into the myriad issues that surround not only the process of counseling and its many populations but also the personal dynamics that have an impact on this process. Furthermore, a collection of supplemental resources is available online to benefit both instructors and students. Instructors will find PowerPoint slides and test banks to aid in conducting their courses, and students can access chapter summaries, exercises, and other tools to supplement their review of the material in the text.

Updated, reorganized, and streamlined to focus squarely on ethical decision making in counseling and psychotherapy and in the practice of specialties in counseling. ; The fifth edition of this text is unparalleled in helping counselors-in-training use ethical decision-making processes as a foundation for approaching ethical and legal dilemmas in clinical practice. Newly organized and streamlined to eliminate redundancies, this textbook presents multiple new chapters that reflect the latest developments in counseling specialty areas. This new edition also features an overview of ethical decision-making models, principles, and standards. Abundant instructor resources, reflecting changes to the fifth edition, include an Instructor's Manual, Power Points, Sample Syllabi, and a Test Bank. Through its alignment with the CAPREP standards, the new edition continues to deliver a comprehensive overview of ethical decision-making models in each chapter, along with step-by-step processes for applying these models to a wide range of clinical cases. Case scenarios specific to specialized practice issues provide insight into practice with different client populations. Additionally, the text considers office, administrative, electronic, technology, and related issues, and the role of values in counseling addressing contemporary emphasis on ethical treatment of value conflicts that are crucial to the operation of all practices. Abundant features highlight key content and reinforce learning, including bold-faced key terms with definitions, boxed content showcasing crucial information, and reflection questions to stimulate rigorous thinking. New to the Fifth Edition: Reorganized and streamlined for ease of use Includes updated reference to codes of ethics from ASCA and AMHCA Addresses shifts in the structure of specialty practices including the merger of CORE and CACREP Provides several new chapters on clinical specialties and supervision issues Focuses on ethics in counseling specialties: clinical mental health; school; couples, marriage and family; addictions; career; rehabilitation; and group Addresses ethical practice of the new clinical rehabilitation counseling specialty—the only text to do so Offers student learning activities in each chapter with additional practice scenarios available for downloading Provides access to appropriate codes of ethics via chapter-by-chapter links Delivers updated case scenarios Key Features: Covers all counseling specialties and their respective ethical codes aligning with recent developments in the profession Describes how to avoid, address, and solve serious ethical and legal dilemmas to prepare counselors-in-training for complex situations they may encounter Includes objectives, case studies, references, key terms, learning activities and reflection questions embedded in chapter content Highlights important information with boxed callouts Addresses key office, administrative, electronic, technology, and other practice issues Provides Appendix with web links to codes of ethics in counseling and specialties Includes Dr. Cottone's Social Constructivism Decision-Making Model and Dr. Tarydas's Integrative Decision-Making Model

Up-to-date and comprehensive, \*including the ACA 2014 Code of Ethics,\* this practical best-selling text provides students with the basis for discovering their own guidelines for helping within the broad limits of professional codes of ethics and divergent theoretical positions. Respected authors Gerald Corey, Marianne Corey, Cindy Corey, and Patrick Callanan raise what they consider to be central issues, present a range of diverse views on the issues, discuss their position, and provide opportunities for students to refine their thinking and actively develop their own position. ISSUES AND ETHICS IN THE HELPING PROFESSIONS, 9th Edition, explores such questions as: What role do the therapist's personal values play in the counseling relationship? What ethical responsibilities and rights do clients and therapists have? What considerations are involved in adapting counseling practice to diverse client populations? With new material in every chapter and an emphasis on critical thinking, the ninth edition is useful for students as well as practicing professionals. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Social workers take pride in their commitment to social and economic justice, peace, and human rights, and in their responses to related inequalities and social problems. At a time when economic globalization, armed conflict, and ecological devastation continue to undermine human rights and the possibilities for social justice, the need for linking a structural analysis to social work practice is greater than ever. The second edition of this popular social work practice text more fully addresses the connection between social justice and human rights. It includes a discussion of social work's role in promoting peace and responding to environmental problems. It also places a greater attention on the links between social work theories/concepts and practice skill/responses. The text has been updated and revised throughout with four new chapters: social work and human rights, cultural competence and practice with immigrant communities, social work and mental health communities, and practice with couples and families. Detailed case studies demonstrate the integration of theory, policy, and practice.

With an emphasis on direct application to practice, this graduate-level text offers strategies for working with diverse client groups in a variety of settings. Introductory chapters build a foundation for cross-cultural counseling with discussions on current theory, the ongoing pursuit of multicultural competence, and the complexities of intersecting identities. Next, 15 chapters designed to help counselors develop their knowledge about and skills with the following populations are presented: African Americans American Indians Arab Americans Asian and Pacific Islanders Economically disadvantaged clients Immigrants Latinx LGBTQ clients Men Military personnel Multiracial individuals Older adults People with disabilities White people of European descent Women Detailed case studies in this section illustrate real-world perspectives on assessment and treatment for an increased understanding of culturally responsive counseling. The final section of the book focuses on ethics and social justice issues. \*Requests for digital versions from ACA can be found on www.wiley.com. \*To purchase print copies, please visit the ACA website. \*Reproduction requests for material from books published by ACA should be directed to permissions@counseling.org

"This edited resource manual contains information pertaining to developing and instructing course work in Counselor Education in both the Clinical Mental Health Counseling (CMHC) and the School Counseling (SC) Programs at the Master's level. It's main objectives are to establish a rationale and format for incorporating active learning across the Counselor Education curriculum; provide material that closely meets the CACREP guidelines for that content area to emerging, new, and established educators developing courses in CMHC or SC programs; and provide active learning strategies that can be incorporated into classroom lessons to emerging, new, and established educators instructing courses in CMHC or SC programs"--Provided by publisher.
