"Why should I read?" Can your students answer that question? Do they have trouble seeing the importance that reading may have in their lives? Are they lacking motivation, both in academic and recreational reading? Do you think you can effectively teach reading strategies if students don't understand the benefits of literacy? In *Reading Reasons*, Kelly Gallagher offers a series of mini-lessons specifically tailored to motivate middle and high school students to read, and in doing so, to help them understand the importance and relevance reading will take in their lives. This book introduces and explains in detail nine specific "real-world" reasons why students should be readers. The book contains forty practical, classroom-tested and reproducible mini-lessons that get to the heart of reading motivation and that can be used immediately in English (as well as other content-area) classrooms. These easy-to-use motivational lessons serve as weekly reading "boostershots" that help maintain reading enthusiasm in your classroom from September through June. The mini-lessons, ranging from five to twenty minutes in length, hit home with adolescents, and in turn, enable them to internalize the importance reading will play in their lives. Rather than telling students reading is good for them, the lessons in this book show them the benefits of reading.

"Nonfiction reading skills are essential to students' achievement in virtually every academic discipline. To do science, students need to read science books and articles. To study history, they need to be skilled at reading all kinds of primary and secondary documents and sources. When we help students become powerful readers of nonfiction, we help them become powerful learners. Across this unit, students will develop a solid set of nonfiction reading skills

including: discerning central ideas; summarizing to create a concise version of a text; synthesizing within and across texts; building vocabulary; and reading critically to question an author's point of view and perspective. At the same time, students develop flexibility as they read across text types and transfer what they know from one type of text to the next. Throughout the unit, students learn to grow their ideas and work collaboratively around high-interest text and topics"--page 4 of cover.

Lucy Calkins discusses how to teach writing and how children develop as writers; she stresses the importance of staff development for teachers of writing.

"SpringBoard is a world-class English Language Arts Program for students in grade 6-12. Written by teachers for teachers. SpringBoard offers proven instructional design to get students ready for the AP, the SAT, and college"--Back cover.
