Laser Engraving Systems and Engraver Machine Tools and ...

Laser machines can cut wood, paper, plastic, fabric, foam, and much more with such high precision and speed, giving lasers a clear advantage over other types of cutting technologies. Epilog's laser systems are designed to be as easy to use as a paper printer, you can create a design in a graphic software program of your choice and print it directly to the laser cutting machine.

Laser Cutter and Cutting Machines from Epilog Laser

A laser engraving machine consists of three main parts: a laser, a controller, and a surface. The laser is a drawing tool: the beam emitted from it allows the controller to trace patterns onto the surface. The controller determines the direction, intensity, speed of movement, and spread of the laser beam aimed at the surface. The surface is chosen to match the type of material the laser can ...
