This book celebrates a century of 4-H in Ontario through stories of members and families from across rural Ontario who have been involved in the 4-H program. Part 1 of the book was originally published in 1995 on the 80th anniversary of 4-H in Ontario and covers its early beginnings and the growth of the 4-H program at the provincial level and in each county and district of the province. Part 2 covers the last 20 years and the story of 4-H Ontario’s growth to become an independent organization and the impact of the 4-H program on families who have been involved in 4-H through several generations. The book showcases how 4-H has kept up with the times to provide diverse programs and a continuum of excellence to inspire youth and give them hands-on experience to develop transferable skills for their future. Some 40 photos are included to help depict the 4-H story over the last century. www.4-hontario.ca

This is an annually updated presentation of Canada past and present. The contents in this volume are organized into sections dealing with Canada’s culture, Geography; people; history (from New France to the constitutional debates in the late 20th century); political system (including the constitution, monarchy, parliament, legal and court system, federalism and the provinces, provincial governments, parties and elections); defense; economy; the future; and a comprehensive bibliography. The combination of factual accuracy and up-to-date detail along with its informed projections make this an outstanding resource for researchers, practitioners in international development, media professionals, government officials, potential investors and students. Now in its 30th edition, the content is thorough yet perfect for a one-semester introductory course or general library reference. Available in both print and e-book formats and priced low to fit student and library budgets.

Despite recent progress in civil rights for sexual and gender minorities (SGM), ensuring SGM youth experience fairness, justice, inclusion, safety, and security in their schools and communities remains an ongoing challenge. In Growing into Resilience, Andr   P. Grace and Kristopher Wells – co-founders of Camp FYrefly, a summer leadership camp for SGM youth – investigate how teachers, healthcare workers, and other professionals can help SGM youth build the human and material assets that will empower them to be happy, healthy, and resilient. Grace and Wells investigte the comprehensive (physical, mental, and sexual) health of SGM youth, emphasizing the role of caring professionals in an approach that that recognizes and accommodates SGM youth. Throughout, the authors draw upon the personal narratives of SGM youth, emphasizing how research, policy, and practice must act together for them to be able to thrive and fulfill their promise. Both a resource for those professionally engaged in work with sexual and gender minorities and a comprehensive text for use in courses on working with vulnerable youth populations, Growing into Resilience is a timely and transdisciplinary book.

What does it mean to be “patriotic” in the United States after the terrorist attacks of September 11, 2001? And how have the prevailing notions of patriotism—loudly trumpeted in the American media—affected education in American schools? In this spirited book, renowned educational leaders and classroom practitioners answer these questions with insights, opinions, and hard facts. They focus on critical issues related to patriotism and democracy in education, including the social studies curriculum, military recruitment in schools, and student dissent. Contributors: Bill Ayers • Michael Bader • Robby Cohen • Sharon Cook • Louis Ganzler • Gerald Graff • Diana Hess • Joseph Kahne • Robert Jensen • Gloria Ladson-Billings • Deborah Meier • Ellen Middaugh • Pedro Noguera • Cecilia O’Leary • Diane Ravitch • and Joel Westheimer. Commentators: Bill Bigelow • H  ctor Calder  n • Edwin C. Darden • Peter Dreier • Delaine Eastin • Chester E. Finn • Jr. • Dick Flacks • Maxine Greene • Joan Kent Kvitka • James W. Loewen • Walter Parker • Charles Payne • Cindy Sheehan • Karen Emily Suurtamm • Studs Terkel • Denise Walsh. “What does it mean to be a democratic citizen? And what kind of education produces one? For the past two decades, Joel Westheimer has been one of North America’s most knowledgeable and able guides to these critical issues. Along the way, he has forced us to reconsider the larger goals and purposes of our public schools. His book will provide an invaluable roadmap for anyone who asks the big questions, no matter what they think of his answers.” —Jonathan Zimmerman, New York University “The essays in this book come at a critical moment and should be welcomed by anyone who is concerned that the values of peace, of democracy, be held high by the coming generation.” —From the Foreword by Howard Zinn, author of A People’s History of the United States “A valuable sourcebook for those who are uncertain about what patriotism is and, even more, for those who are certain that they know.” —Howard Gardner, author of Five Minds for the Future “By bringing together diverse and often divergent perspectives of patriotism, Pledging Allegiance opens to critical scrutiny the very idea of loyalty to a country. In doing so, it not only offers a useful educational resource but also performs a valuable political service. I can’t think of many books more likely to stimulate deep reflection and spirited discussion, and these activities, after all, are integral to democracy itself.” —Allie Kohn, author of What Does It Mean to Be Well Educated?

The Hill Times: Best Books of 2017 Successful Canadians write about failure, and how it got them where they are today. What does it mean to fail? To some of the most successful Canadians, it was a rite of passage, a stepping stone to greater things, or even a brilliant source of inspiration. Olympic golds, successful businesses, pioneering medical advances—all came about after a series of missteps and countless attempts. Canadian Failures gathers ten experts from the private, public, and not-for-profit sectors and academia, all of whom have grappled with failures and success throughout their lives. Their powerful argument: that Canada, and Canadians, must be willing to learn from failure if we hope to succeed. With Chapters By ...astronaut Robert Thirk, Olympic gold medalist, wrestler Erica Wiebe Chair of OpenText and of the National Research Council, Tom Jenkins co-founder of the Just for Laughs comedy festival, Andy Nulman ... and others at the top of their fields.

The New NDP is the definitive account of the evolution of the New Democratic Party’s political marketing strategy in the early twenty-first century. In 2011, the federal NDP achieved its greatest electoral success – becoming the official opposition. The moderation of its ideology and modernization of its campaign structures brought the party closer than ever to governing. But by 2015, it had fallen back to the third-party spot. Were moderation and modernization the right choices after all? This incisive book provides lessons for progressive parties on how to win elections in the age of the internet, big data, and social media.

What are teacher communities? What are they after? How do they begin? Do they evolve through stages? How alike or different are they from one another? And how are such communities built? This account of an urban and a suburban school, the author attempts to provide answers to these questions.
