Maternal Child Health The Columbia County Department of Health offers programs and services to assist families during pregnancy, after the baby's birth, and during the childhood years. Our goal is to provide education, assessments, and health care to help promote the healthiest possible start for your child's life.

Columbia County Public Health | Nursing and Clinical Services

For too long perinatal care focused on nine months of pregnancy and the delivery of a healthy infant at 40 weeks. Then we underwent a paradigm shift. We realized that the care that we offer in first 100 days after a baby is born is just as important as the care we provide during pregnancy. The 4th Trimester was born!

National Perinatal Association - 2020 Conference

This text offers complete preparation for meeting the needs of families across the continuum - from conception through adolescence. Using a consistent nursing process framework, "Maternal-Newborn and Child Nursing "provides the essential information for providing accurate, safe nursing care. Special focus is given to cultural influences, community settings, communication, nutrition, pain management, and fostering critical thinking skills essential for adapting to an ever-changing health care environment. Features include: Thinking Critically boxes that provide brief real-life scenarios. Developing Cultural Competence provides information about the potential responses of different ethnic groups to health conditions or health care interventions. As They Grow boxes illustrate the anatomic and physiologic differences in infants and children from adults. Pathophysiology Illustrated boxes illustrate the disease process. Drug Guides for selected medications commonly used in maternal-newborn and child nursing. Complementary Care presents information about commonly used alternative therapies. Growth and Development Considerations detail the different responses of children at various ages to health conditions. Comprehensive Teaching and Learning Package Student CD-ROM - Packaged FREE with each text includes an audio glossary, a step-by-step breakdown of maternity and pediatric skills, NCLEX review questions, and animations to illustrate difficult concepts. Clinical Skills Manual for Maternal-Newborn and Pediatric Nursing - serves as a portable, quick-reference to step-by-step procedures for more than 85 pediatric and maternity skills using full-color photographs and rationales. Companion Website www.prenhall.com/london - Available FREE includes modules for objectives, chapter outlines, audio glossary, NCLEX review questions, critical thinking and case studies, links to other sites for student research and essay responses, additional nursing care map activities and more. Online Course Management Systems - Ask your Prentice Hall Representative or go to www.prenhall.com/demo for more information about the online course management systems that accompany this text.

Written by the foremost experts in maternity and pediatric nursing, Maternal Child Nursing Care, 5th Edition offers the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX® examination. This new edition offers numerous content updates throughout the text to keep you up-to-date on the latest topics and best practices. Plus hundreds of illustrations, alert boxes, and tables clarify key content and help you quickly find essential information. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, supply resources and guidance, and illustrate nursing care in a variety of settings. Critical thinking case studies offer opportunities to test and develop your analytical skills and apply knowledge in various settings. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Family-Centered Care boxes highlight the needs or concerns of families that you should consider to provide family-centered care. NEW! Content updates throughout the text give you the latest information on topics such as the late preterm infant, fetal heart rate pattern identification, obesity in the pregnant woman, shaken baby syndrome/traumatic brain injury, Healthy People 2020, car restraints, immunizations, and childhood obesity. NEW! Updated Evidence-Based Practice boxes including QSEN KSAs (knowledge, skills, attitudes) provide the most current practice guidelines to promote quality care. NEW! Medication Alerts stress medication safety concerns for better therapeutic management. NEW! Safety Alerts highlighted and integrated within the content draw attention to developing competencies related to safe nursing practice.

For all courses in maternal and child nursing care in any nursing program. This dynamic, up-to-date text offers an integrated framework and philosophy for teaching the nursing of childbearing families and nursing of children together. Accurate, readable, and concise, Maternal & Child Nursing Care supports faster and more efficient learning in briefer, more compressed courses; while helping students develop essential skills for fast-changing healthcare environments. Core themes in this edition include family-centered and community-based care; health promotion (including Healthy People 2020); patient and family education; clinical reasoning; evidence-based practice, and developing cultural competence. This edition adds new Safety Alerts; more coverage of pain as the fifth vital sign; greater focus on care of families where a child is dying; and updated content on assessment, nutrition, communication, and many other key topics. Multiple pedagogical tools help students focus both learning and review, including intuitive Pathophysiology Illustrated visuals; Family Quotes presenting the family's perspective; Learning Outcomes and Critical Concept Review Features; Key Terms, and an online audio glossary.

Canadian Maternity and Pediatric Nursing prepares your students for safe and effective maternity and pediatric nursing practice. The content provides the student with essential information to care for women and their families, to assist them to make the right choices safely, intelligently, and with confidence.

This money saving package includes the Perry: Maternal Child Nursing Care, 4th edition textbook, and the Simulation Learning System (SLS) User Guide & Access Code for Perry's Maternal Child Nursing Care, 4th edition. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED. The Simulation Learning System (SLS) integrates simulation technology into your combined maternity and pediatric nursing course by providing realistic scenarios and supportive learning resources that correspond to Perry: Maternal Child Nursing Care, 4th edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing.

Specially designed to parallel the material in Maternal-Child Nursing, 4th Edition, this user-friendly study guide provides valuable review of essential concepts and skills. Hands-on learning exercises and practical activities allow you to apply your knowledge to real-world scenarios. Learning exercises include multiple-choice, matching, true/false, and review questions, as well as case studies, critical thinking activities, clinical learning exercises, and key concepts. Active learning approach helps you understand complex processes, improve skills performance, and develop critical-thinking and clinical decision-making skills. Completely updated content matches the textbook and provides a comprehensive review of essential maternal-child concepts and skills.

This is an essential book for the shorter courses in maternity nursing, e.g., 4-8 weeks long or as a refresher for professionals. Features in this book include: Women's Health and Reproductive Issues; Conception and Development; Pregnancy--Normal and High Risk; Labor--Normal and High Risk; Birth--Normal and High Risk; Postpartum Care--Normal and High Risk; Newborn Care--Normal and High Risk. Nursing students and professionals.

This is a Pageburst digital textbook; Engaging and easy to read, this concise textbook offers just the right level of maternity and pediatric nursing coverage. It provides a solid foundation in normal body function, then builds on that knowledge to help you understand how to modify nursing care when the unexpected arises. Clear writing and interactive learning tools (including video and animation) reinforce key concepts and encourage you to think critically and apply what you've learned. Critical to Remember boxes highlight "need to know" information for quick and easy access. Critical Thinking Exercises challenge you to apply critical thinking and problem-solving skills to realistic clinical scenarios. Illustrated Procedure boxes provide clear, step-by-step instructions for performing key clinical nursing tasks. Nursing Care Plans in every clinical chapter help you learn to use the nursing process to develop individualized care for maternity and pediatric patients. Communications Cues provide practical verbal and nonverbal tips for communicating effectively with patients and families. Want to Know boxes offer helpful patient teaching guidelines. Photo Stories use engaging pictures to demonstrate the types of care nurses provide in a variety of clinical settings. Pathophysiology boxes in pediatric chapters provide illustrated overviews of common disorders. Companion CD-ROM contains video clips, 3-D animations, illustrated skills, case studies with critical thinking questions, NCLEX® examination-style review questions, and an audio glossary complete with Spanish pronunciations. Evolve Student Resources Website offers up-to-date web links, video clips, resources for health care providers, review questions, and a variety of interactive exercises. Integrated electronic features match icons in the text, so you can use print and electronic resources more effectively together. Using Research to Improve Practice boxes help you determine proper care to reinforce best practice. Spanish translations are included for phrases commonly encountered with maternity and pediatric patients. Improved design makes the text easier to read, and up-to-date photos ensure accuracy.
