contemporary masterworks that represent the highest expression of Scandinavian design and response to their environment. Fifty projects are featured in detail, ordered according to the way in which different light conditions have imparted particular qualities on the buildings. Henry Plummer treats his subject from a uniquely authoritative perspective in which his words resonate directly with his artfully taken images. Books that give a true sense of the magical light that have shaped great buildings are rare: this is a publication to savour. Nine chapters present established icons, newly discovered gems and contemporary masterworks, according to the way in which different light conditions have imparted particular qualities to buildings. Among the buildings featured are Arne Jacobsens town hall in Århus, Denmark, Alvar Aaltos Villa Mairea in Finland, Klas Anshelms Malmö Konsthall in Sweden, and many others. Each chapter features an introduction, which traces the nature, quality and cultural history of that aspect of light.

This book contains new photographs of some of the most significant Scandinavian private houses from the 1930s to the present day. The houses featured vary greatly in plan, materials and construction, but

are all strikingly modern. Nordic architecture is highly distinctive, characterised by a sensitivity to the tonal qualities of light, in particular the conscious use of light as the most important form-producing and space-defining element. This selection of fourteen of the most beautiful houses in Scandinavia showcases the best in Nordic architecture and the spirit of Nordic light.

In *Scandinavian Modern*, Magnus Englund and Christina Schmidt of design store Skandium trace the development of the Scandinavian style, introduce key designers and take a look at some of the most stylish homes in Scandinavia. The first section, *Elements*, takes a lively look at Scandinavian designers and design in the context of materials: wood, glass, textiles, ceramics, and so on. The second section, *Living*, offers an in-depth visual survey of 12 outstanding homes in Denmark, Sweden, and Finland, ranging from modern country homes to sophisticated city-center apartments. The accompanying text provides a fascinating insight into each interior, describing its design, planning, and evolution.

shows how Scandinavian architects use their own resources and traditions, as well as adapting the styles of medieval, Renaissance, baroque and modern Europe to generate ideas that were to have major international consequences

Overflowing with stunning photography, this collection discovers the best contemporary houses across Scandinavia's most beautiful and remote locations, designed by both emerging and established architects.

If the goal were to build a house in which everyone would like to live, the architect would likely be Italian, the engineer maybe German, the gardener probably British, and the craftspeople either Swiss or Japanese. The interior designer of that house, though, should - beyond any doubt - be from Scandinavia. Northern Delights reveals why hardly any other interior or product design is so timeless, so functional, so aesthetic, and of such high quality as that of Sweden, Norway, Finland, and Denmark. The book's stunning selection of Scandinavian design ranges from individual products to skillfully staged living spaces. Although it also presents iconic designs, the

book focuses on the work of young talents who are consciously building upon local sustainable design traditions and further developing them in a way that is consistent, intelligent, and reflects an unerring sense of style. Northern Delights showcases classic, minimal, rustic, and pop styles that are united by their simplicity, functionality, and love of light. The included examples show how the grains of different woods, the clarity of colored glass, the cheery colors of fabrics and patterns, and the overall quality of craftsmanship contribute to creating simple, inviting, and very comfortable spaces. Whether the featured work was created for residences, offices, or any other rooms, in a Scandinavian interior, everyone feels at home.
