With the introduction of the Unified Patent Court (UPC) and the new European Patent with Unitary Effect, the European patent litigation system is undergoing a set of fundamental reforms. This timely book assesses the current state of European patent litigation by analysing recently published data on Europe's four major patent jurisdictions - the UK, Germany, France and the Netherlands - and also looks ahead to examine what the impact of the UPC is likely to be on Europe's patent litigation system in the near future.

This collection brings together new insights around current translation and interpreting practices in national and supranational settings. The book illustrates the importance of further reflection on issues around quality and assessment, given the increased development of resources for translators and interpreters. The first part of the volume focuses on these issues as embodied in case studies from a range of national and regional contexts, including Finland, Switzerland, Italy, Spain and the United States. The second part takes a broader perspective to look at best practices and questions of quality through the lens of international bodies and organizations and the shifting roles of translation and interpreting practitioners in working to manage

these issues. Taken together, this collection demonstrates the relevance of critically examining processes, competences and products in current institutional translation and interpreting settings at the national and supranational levels, paving the way for further research and quality assurance strategies in the field. More than 140 pages of real action and adventure by designers Wolfgang Baur and Dan Dillon.

Shakespeare is the most critically acclaimed playwright of all time. So why is he so hard to understand? This massive anthology of Shakespeare's tragedies will give you a new appreciation of William Shakespeare by putting each of his tragic works in plain and simple English. Included in this anthology: Romeo and Juliet Coriolanus Titus Andronicus Timon of Athens Julius Caesar Macbeth Hamlet Troilus and Cressida King Lear Othello Antony and Cleopatra Cymbeline The original text is also presented in the book, along with a comparable version of both text. We all need refreshers every now and then. Whether you are a student trying to cram for that big final, or someone just trying to understand a book more, BookCaps can help. We are a small, but growing company, and are adding titles every month.

When the revolutionary technology of photography erupted in American culture in 1839, it swiftly became, in the day's parlance, a "mania." This richly illustrated book positions vernacular photography at the center of the study of nineteenth-century American religious life. As an empirical tool, photography captured many of the signal scenes of American life, from the gold rush to the bloody battlefields of the Civil War. But photographs did not simply display neutral records of people, places, and things; rather, commonplace photographs became inscribed with spiritual meaning, disclosing, not merely signifying, a power that lay beyond. Rachel McBride Lindsey demonstrates that what people beheld when they looked at a photograph had as much to do with what lay outside the frame--theological expectations, for example--as with what the camera had recorded. Whether studio portraits tucked into Bibles, postmortem portraits with locks of hair attached, "spirit" photography, stereographs of the Holy Land, or magic lanterns used in biblical instruction, photographs were curated, beheld, displayed, and valued as physical artifacts that functioned both as relics and as icons of religious practice. Lindsey's interpretation of "vernacular" as an analytic introduces a way to consider anew the cultural, social, and material reach of religion. A multimedia collaboration with MAVCOR—Center for the Study of Material & Visual Cultures of Religion—at Yale University.
