Shadow of the Sun is much more than romance. We get plenty of action and that is what kept me reading. I liked the whole idea of all of the angels who were conscious beyond a certain point in time having no memory of what Halos of the Sun were. That is what the trio dug up in Italy are.

As a supernatural specialist, and far more intelligent than anyone her age, she has always been ignored by her peers. Because of the isolation she has always felt, she put her life and soul into her job. Being a supernatural specialist hasnt given her the divine intervention she always longed for, until one day a shipment arrives from Italy containing three dead bodies with an uncanny ability to regenerate. Gabriella is frightened and intrigued, but not as scared as she becomes when a dark creature attacks her. As the bodies come back to life, the plot takes an unexpected twist that you wont see coming. The supernatural world only begins to unfold before her as angels appear, her dreams start to haunt her, and the very past she has forgotten comes back with startling clarity. death is only around the corner. But what is more terrifying than all of it is the fact she is the chosen one, the Illuminator, the one who will save them all.

Jealousy, Lies, Betrayal, Murder...and MagicA reign of terror has kept Egypt in shadow, even at the apex of her power and glory. The greedy and corrupt priests of the dark god Amun maintain a tight grip on the people through the use of fear, superstition, brutality, and, when necessary, diabolical sorcery. Now, there is the promise of a new hope, a new light, but that promise is not welcomed by all. When the ambitious Queen Nefertiti and her consort, the gentle King Akhenaten, introduce a peaceful--and revolutionary--form of Sun worship in the hope of bringing about harmony and unification, Egypt is instead torn into warring factions on all levels of society. Into this deadly conflict is born the first Royal Daughter, Merit-Aten, whose ability to see vivid auras and converse with animals comes with a price. Before her birth, she entered into a sacred contract to save her family and restore peace to her country. But, with danger threatening from every side--even from within her own family--will she be able to honor her contract without destroying everyone she loves? Queen Nefertiti's first daughter is born to save her family and bring peace to her country after her father introduces a revolutionary form of

peaceful worship during a dark reign of terror. But, can she do it without destroying everyone she loves? A reign of terror has kept Egypt in shadow. The corrupt Amun priests control the people through fear, superstition, brutality, and even diabolical sorcery. When the ambitious Queen Nefertiti and her consort, the gentle King Akhenaten, introduce a peaceful--and revolutionary--form of Sun worship in the hope of bringing about harmony and unification, Egypt is instead torn apart. Now, the first Royal Daughter, Merit-Aten, whose ability to see vivid auras and converse with animals is born to save her family and restore peace to her country. But, will she be able to do it without destroying everyone she loves?

North Korea is known as the most repressive country on Earth, with a dictatorial leader, a starving population, and harsh punishment for rebellion. Not the best place for a family vacation. Yet that's exactly where Mia Andrews finds herself, on a tour with her aid-worker father and fractious older brother, Simon. Mia was adopted from South Korea as a baby, and the trip raises tough questions about where she really belongs. Then her dad is arrested for spying, just as forbidden photographs of North Korean slave-labor camps fall into Mia's hands.

The only way to save Dad: get the pictures out of the country. Thus Mia and Simon set off on a harrowing journey to the border, without food, money, or shelter, in a land where anyone who sees them might turn them in, and getting caught could mean prison -- or worse. An exciting adventure that offers a rare glimpse into a compelling, complicated nation, *In the Shadow of the Sun* is an unforgettable novel of courage and survival.

When Gabriella decides to finally let her angels know that she is alive, Joseph and an unexpected friend help her. The Darkness Illuminator is not as in control of her power as she believes, which makes for a very comedic and endearing relationship that blooms among the three.

From two of the greatest imaginations of our time comes a magnificent novel of adventure and magic...SHADOW MOON: First in the Chronicles of the Shadow War. The genius of Star Wars(r) creator George Lucas and the vision of Chris Claremont, the author of the phenomenally bestselling The Uncanny X-Men adventures, merge in what must be the fantasy event of the year. In Shadow Moon, war and chaos have gripped the land of Tir Asleen. An ancient prophecy reveals one hope: a savior princess who will ascend to the throne when the time is right. But first, a Nelwyn wanderer must face forces of unimaginable malevolence and dangerous, forbidden rites of necromancy that could bring back a powerful warrior from soulless sleep. George Lucas reshaped filmmaking in the '70s and '80s with his Star Wars and Indiana Jones films. When Bantam Books asked Lucas if he had any stories he would like to develop as novels rather than as films, Lucas turned to his 1988 fantasy film, Willow. "When I wrote the story for Willow, I began with the pre-story," Lucas said, "but the full story was yet to be told." Now, Lucas's vision is being fulfilled with the talented help of Chris Claremont. Having previously taken the reins of what was for a decade the bestselling comic in the western hemisphere (The Uncanny X-Men) Claremont assumes the responsibility of foster parent to Lucas's creation. On sale in hardcover now, and available on BDD Audio

Mina was born on the longest night of the darkest month of the year. When her father looked at her, all he saw was what he feared: By birth, by name, by nature, she belonged to the Dark. So when Mina turned sixteen, her father took her away from shadow and brought her into sunlight. In retaliation, her mother lured a handsome prince into a deadly agreement: If he frees Mina, he can claim her as his bride. Now Mina and her prince must endure deadly trials -- of love and fate and family -- before they can truly live happily ever after....

“A vivid exploration of one man's lifelong obsession with an idea . . . Egan's spirited biography might just bring [Curtis] the recognition that eluded him in life.” —Washington Post Edward Curtis was charismatic, handsome, a passionate mountaineer, and a famous portrait photographer, the Annie Leibovitz of his time. He moved in rarefied circles, a friend to presidents, vaudeville stars, leading thinkers. But when he was thirty-two years old, in 1900, he gave it all up to

pursue his Great Idea: to capture on film the continent's original inhabitants before the old ways disappeared. Curtis spent the next three decades documenting the stories and rituals of more than eighty North American tribes. It took tremendous perseverance—ten years alone to persuade the Hopi to allow him to observe their Snake Dance ceremony. And the undertaking changed him profoundly, from detached observer to outraged advocate. Curtis would amass more than 40,000 photographs and 10,000 audio recordings, and he is credited with making the first narrative documentary film. In the process, the charming rogue with the grade school education created the most definitive archive of the American Indian. “A darn good yarn. Egan is a muscular storyteller and his book is a rollicking page-turner with a colorfully drawn hero.” —San Francisco Chronicle “A riveting biography of an American original.” —Boston Globe
