My son loved Jon Hales' previous book, "Mathimals", so I bought "When I Grow Up" for him, a niece, a nephew and a friend's daughter. They all seem to have really enjoyed it. "When I Grow Up" is aimed at a slightly older age group than "Mathimals" (my son is six).

When you're an author, you can write about whatever you want. Some of my books are for kids, and some are for teenagers, and all of them are fun for the right sort of grown up. The important thing is to write a book that you would want to read. What do you like best about your job?
