In particular, the integrative approach helps clients face each moment openly and authentically without having formed an opinion, expectation or attitude beforehand. This enables them to better focus on the fears and hurts that limit their psychological freedom, and recognise specific triggers that may be causing disruptive patterns of behaviour.

## **Integrative Approaches to Supervision by Michael Carroll**

An integrative approach to supervision  
One approach that lends itself well to integration is the Seven-Eyed Model of Supervision developed by Peter Hawkins and Robin Shohet. This looks at several facets of the supervisor-coach-client relationship. In a coaching context, these are:

## **What is coaching supervision and why is it so important?**

Integrative Models of Supervision As the name implies, integrative models of supervision rely on more than one theory and technique (Haynes, Corey, & Moulton, 2003). Given the large number of theories and methods that exist with respect to supervision, an infinite number of "integrations" are possible.
