Military Transformation And Modern Warfare A Reference ...

Modern warfare is warfare that is in notable contrast with previous military concepts, methods, and technology, emphasizing how combatants must modernize to preserve their battle worthiness. As such, it is an evolving subject, seen differently in different times and places. In its narrowest sense, it is merely a synonym for contemporary warfare. In its widest sense, it includes all warfare since the "gunpowder revolution" that marks the start of early modern warfare, but other landmark military

Modern warfare - Wikipedia

Early modern warfare is the era of warfare following medieval warfare. It is associated with the start of the widespread use of gunpowder and the development of suitable weapons to use the explosive, including artillery and firearms; for this reason the era is also referred to as the age of gunpowder

warfare. This entire period is contained within the Age of Sail, which characteristic dominated the era's naval tactics, including the use of gunpowder in naval artillery. All of the Great Powers of

Early modern warfare - Wikipedia

Transformation is a process with no simple end point.² Military transformations are only sometimes successful; they can even be distinctly counterproductive because militaries often embrace concepts too strongly and uncritically. ³ Since mistakes are to be expected, hedging and course correction are basic ingredients in successful transformation.
