The Meredith Small article on "Our Babies, Ourselves" reprinted in Applying Anthropology: An Introductory Reader can be a useful follow-up to Body Ritual among the Nacirema. The "Our Babies, Ourselves" article is a very short version of Meredith Small's book by the same name, Our Babies, Ourselves: How Biology and Culture Shape the Way We Parent. The most obvious first lesson, which follows naturally from Horace Miner's Nacirema article, is about how many different ways there are ...

### Meredith Small - Our Babies, Ourselves: Childcare & Culture

"Small (Our Babies, Ourselves), an anthropology professor at Cornell University, catalogs a dizzying array of Venetian innovations in this illuminating account of how "one small place had an outsized influence on the development of Western culture." She discusses scientific research into how and why humans invent things, and examines how the origin myths of Venice, among them that God directed St. Mark to the island that became the Rialto, fostered innovation by verifying the Venetian ...

by Meredith F. Small - RELEASE DATE: May 1, 1998 A look at the not-so-new idea that how babies eat, sleep, and cry is determined by the culture into which they are born—including a subtext that the ever-evolving parenting mode in the US may still not be all that baby-friendly.

### OUR BABIES, OURSELVES | Kirkus Reviews

I was familiar already with a lot of the content of Our Babies, Ourselves, because Meredith Small's findings crop up in a lot of literature on attachment parenting. However, it was still well worth reading because she delves so deeply into issues of evolution, natural selection, biology, and human development to demonstrate why parenting styles vary across cultural lines.

Although it is isn't a "How to" book, "Our Babies, Ourselves" is by far the best book I've read on baby rearing. Meredith Small presents different cultures' techniques for raising children, then analyzes them using an anthropological perspective. Small examines how these cultures differ in such areas as nursing, where babies sleep, carrying babies, and how quickly to respond to a baby's cries.Small names specific studies as evidence.
