### Sky Habitat Singapore Safdie Architects

Sky Habitat is a three-dimensional matrix of homes with terraces, balconies, and communal gardens, bringing landscape, light and air into every level of the building. The building's stepped form is akin to a hillside town. The units feature multiple orientations relative to the sun, natural ventilation, and generous views.

### Sky Habitat Singapore / Safdie Architects | ArchDaily

A paper by Jaron Lubin, Principal. Originally published in Council on Tall Buildings and Urban Habitat (CTBUH) Journal, 2016 Issue 1. The principles set forth 48 years ago at the Montreal Expo 1967, embodied in the form of Habitat '67, which proposed an entirely different kind of "modern tall housing project," are now advanced int he 21st century in Singapore, with Sky Habitat.

### Safdie Architects

Artmore Habitat, image by Moshe Safdie Architects. My first glimpse of Safdie's latest Habitat project in Singapore was in a lecture last year, where he spoke of a building that used a "fractalisation of the building mass" inspired by organic forms. These forms allow the creation of outdoor gardens in the sky for every unit, open-air sky streets, and to allow permeation of light and air into every unit.
